Student Reports

The information and functionality in the Student Reports empower educators to explore student data more deeply. The benefits of the Student Report include:

- Quick access to student information all in one location
- Easy comparisons across grades and subjects or courses
- Multiple filters to enable specific data views for analysis

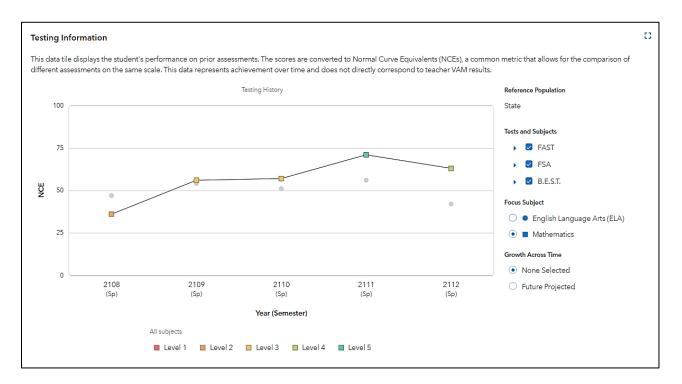

Report Overview

Testing Information Tile – Growth Across Time

None Selected

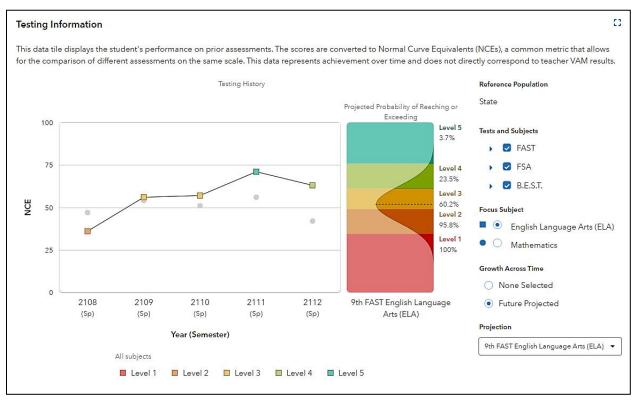

When you choose **None Selected** under the **Growth Across Time** options for the **Testing History** graph, you can view a student's testing history across all subjects. Use the **Focus Subject** menu to highlight a subject area.

Future Projected

When you select **Future Projected** under the **Growth Across Time** options for the **Testing History** graph, you can view projections based on the student's past testing history and the prior year's cohort of test takers.

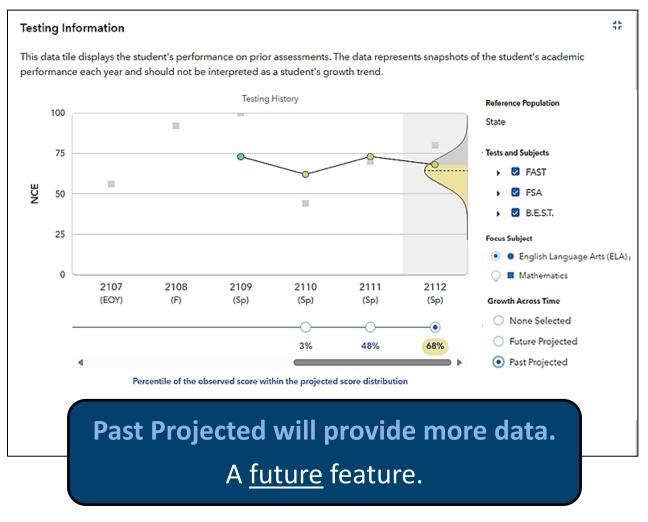

- The bell curve represents the possible range of likely scores on a test a student has not yet taken.
- The dotted line represents the most likely score the student will achieve.
- The color-coded areas represent each performance level for the selected projection.
- Projected probabilities of reaching or exceeding each performance level are provided to the right of the color-coded bell curve.

Past Projected

When you select **Past Projected** under the **Growth Across Time** options for the **Testing History** graph, you will see a visual representation of the student's projected scores for assessments they have previously taken. This view displays the past projections and indicates whether the student met, exceeded, or fell short of those.

- The bell curve will represent the possible range of projected scores for the student.
- The dotted line will represent the student's projected score.
- The radio button and shaded yellow portion of the bell curve will represent where the actual score landed in the range of possible projected scores for this student.
- The colored shapes will represent the actual scores for the selected Focus Subject.

Testing Information Tile – Testing History Table

The **Testing History** table displays the student's testing history and includes assessments the student took in the past, the school where they took the assessments, and the grade in which the assessment was administered.

Student Projections Tile

The **Student Projections** tile provides reliable indicators of a student's likelihood of reaching assessment milestones. The report displays the selected student's probability of reaching or exceeding each performance level.

tudent Projections							
projection is a reliable indicator of a student's likelihood	of reaching o	or exceeding f	uture achieve	ment levels. It	t is based on th	ne student's pa	st performance on assessments across subjects.

Value-Added History Tile

The **Value-Added History** tile displays the teacher value-added measure when the student was connected to them.

Value	-Added History					13			
This data tile displays the relevant VAM results for the teacher(s) linked to the student in a given year. This can provide useful information regarding the quality of instruction the student has historically received in ELA and mathematics.

Custom Student Reports

Custom Student Reports allow you to create and save lists of students for future reference. They help share student projections for groups, such as classroom rosters or intervention groups.

Here are some key points to keep in mind when using Custom Student Reports:

- If your account does not include access to Student Reports, you will not see Custom Student Reports in the Reports menu.
- Only a school admin can create Custom Student Reports to share with other users in their school. However, the school admin can assign these reports, and any user with account management access can share reports initially created by the admin.
- Custom Student Reports will remain available in FL VAM until the next reporting year is released.
- The report below displays a sample of the student information that would be included in an actual report.

Pie Graph

When you select **Show Pie Chart** on the Custom Student Report, you will be able to view a visual representation of how the group of students is projected to perform on a future assessment based on their individual testing histories.

In the sample below, the user has chosen to view how likely the enrolled seventh-grade students are to reach Level 4 or higher on the upcoming English Language Arts assessment. The report shows the following:

- 225 students have a high probability of reaching or exceeding Level 4 (Greater than 70%)
- 114 students are somewhat likely to reach or exceed Level 4 (Between 50% and 70%)
- 444 students are less likely to reach or exceed Level 4 (Less than 50%)
- Zero students do not have a projection for the assessment

It is important to note that the projections are based on students having an average learning experience. Schools can influence the outcomes by providing a better-than-average learning experience. However, if students have a less effective learning experience, they might not reach the levels as projected.

How to Make a Custom Student Report

Putting Student Projections in a List

1. Hover over the Reports tab and click **Custom Student Reports**.

2. Click Create a New Report.

	Report: Custom St	rudent Reports
	Create a Ne	ew Report
<u>Report Name</u>	Last Updated	Options
Sample Report	March 14, 2022 7:53 PM	Add Students Rename Delete

3. Decide on a name for your new report and enter it in the required box. Then click **Create**.

4. Next, select options for finding the students that you need. After you have selected all parameters for the search, click **Submit**.

Student Search				
Last tested in:	Any Grade	-		
District:	District-JBw	~		
School	All Schoole			
		Gender		
Demographics:	Race/Ethnicity		Sex	Other
	☐ Asian ☐ Black/Afric ☐ Hispanic ☐ Multiracial	ndian/Alaskan Native an American vaiian/Other Pacific Islander	☐ Female ☐ Male ☐ Unknown	 English Language Learner Gifted Student With Disability
Projected Proficiencies:				
Test		Subject (Level)	Lower % Upper %	6
-	Tests 🗸 🗸	Subjects (Level) 🗸	0 0	<u>Clear test</u>
		<u>Add Another Test</u>		
		Submit (<u>Reset</u>)		

5. A list of students appears that matches your search criteria. Place a checkmark beside each student's name that you want to add to the report. Then, click **Add Selected Students**.

		Back to Student Se	earch 🗣 Select All Pages	Ø De	select		s Add	Selected Stude	ents
	<u>Student</u>	District	Tested School	<u>Grade</u>	<u>ELL</u>	<u>Gifted</u>	<u>SWD</u>	<u>Probability</u>	Projected State Percentile
~	<u>1304346, STUDENT</u>	High Top Peaks	High Point Middle School	7	N	U	U	<u>0.7</u>	<u>5</u>

	CLUSTI, STUDENT	High Top Peaks	High Point Middle School	7	U	U	U	<u>6.0</u>	<u>19</u>
	1048773, STUDENT	High Top Peaks	High Point Middle School	7	Ν	U	U	<u>12.0</u>	<u>25</u>
	20834, STUDENT	High Top Peaks	High Point Middle School	7	Ν	U	U	<u>11.5</u>	<u>25</u>

6. Your Custom Student Report is now created.

Teacher Reports

FL VAM offers various Teacher Value-Added Reports, including individual reports for specific grades and subjects, as well as Aggregate reports that compile data from all FSA/FAST grades and subjects where the teacher received a report.

These reports provide insights into the academic growth of a teacher's students and can support decisions related to professional development, teacher recruitment, and student scheduling, among other areas.

User Account Structure

FL VAM has six distinct roles that can be assigned to users depending on the assignee's level of access. The diagram below shows the user's role and permissions.

FL VAM USER ROLE	ABILITY TO VIEW:
Instructional User	View <u>all</u> the Student Reports in their assigned school
VAM Teacher Limited	 Individual Teacher Report access View the student list associated with their Teacher Report View Student Reports associated with their Teacher Report in any year
VAM Teacher	 View the student list associated with their Teacher Report and <u>all</u> the Student Reports in their assigned school with Individual Teacher Report access View <u>all</u> the Student Reports in their assigned school without Individual Teacher Report access
VAM School Personnel	 View the School Teacher Summary View <u>all</u> Student Reports in their assigned school
VAM District Personnel	 View the District Teacher Summary View <u>all</u> Student Reports for their assigned district
VAM State Personnel	 View the State Teacher Summary View <u>all</u> Student Reports in their assigned districts and schools

Activity 1: Custom Student Reports

Directions:

- **Discuss** the Custom Student Report on pages 20-22.
- Identify students who might benefit from targeted learning opportunities.
- **Consider** what other data you need to assist with grouping students.
- **Choose** a spokesperson to share ideas.
